Birdie Blooms

The eight logo options on the website

HOW TO READ THIS

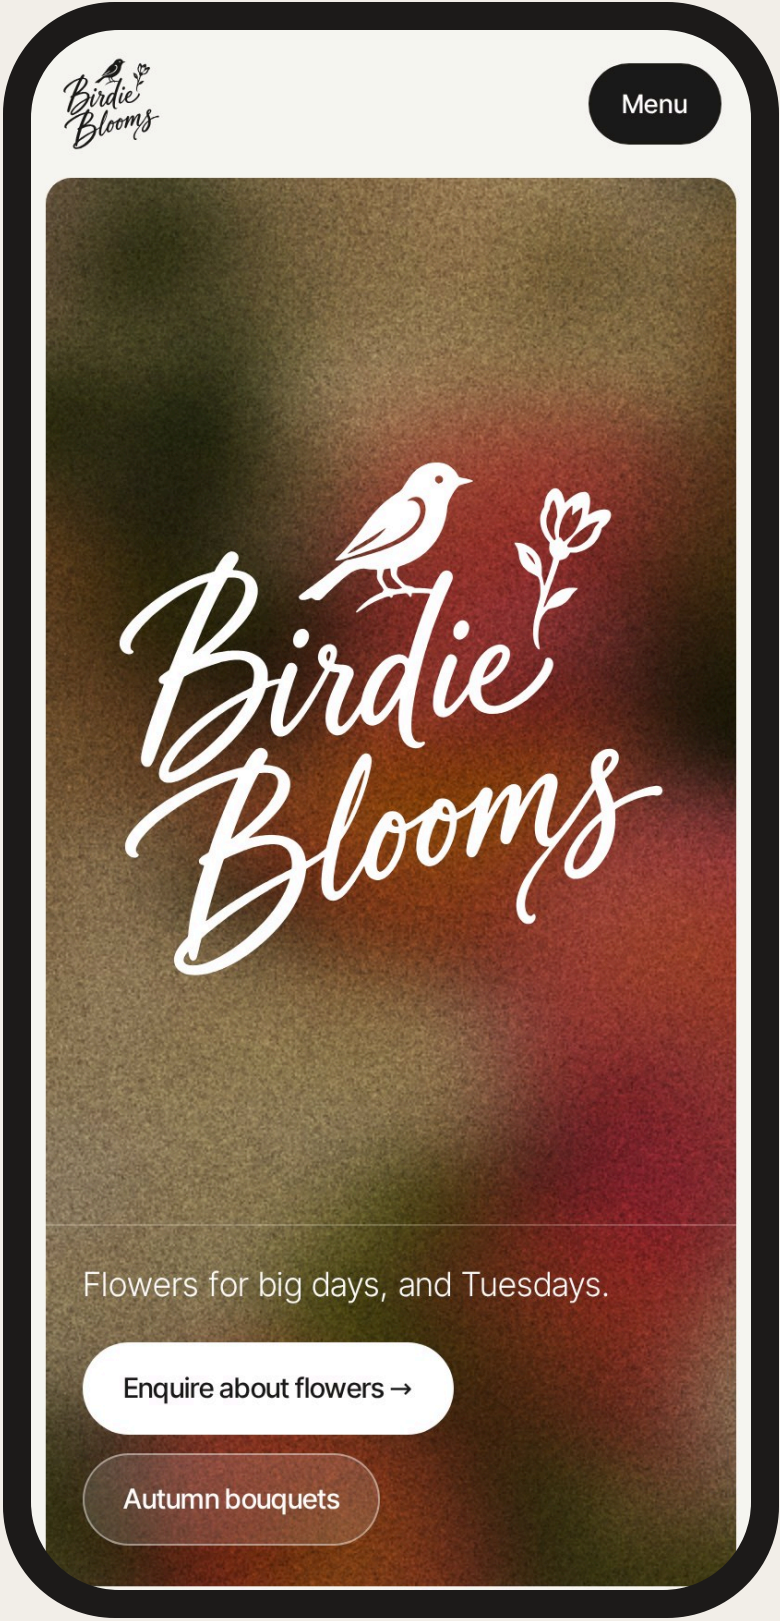

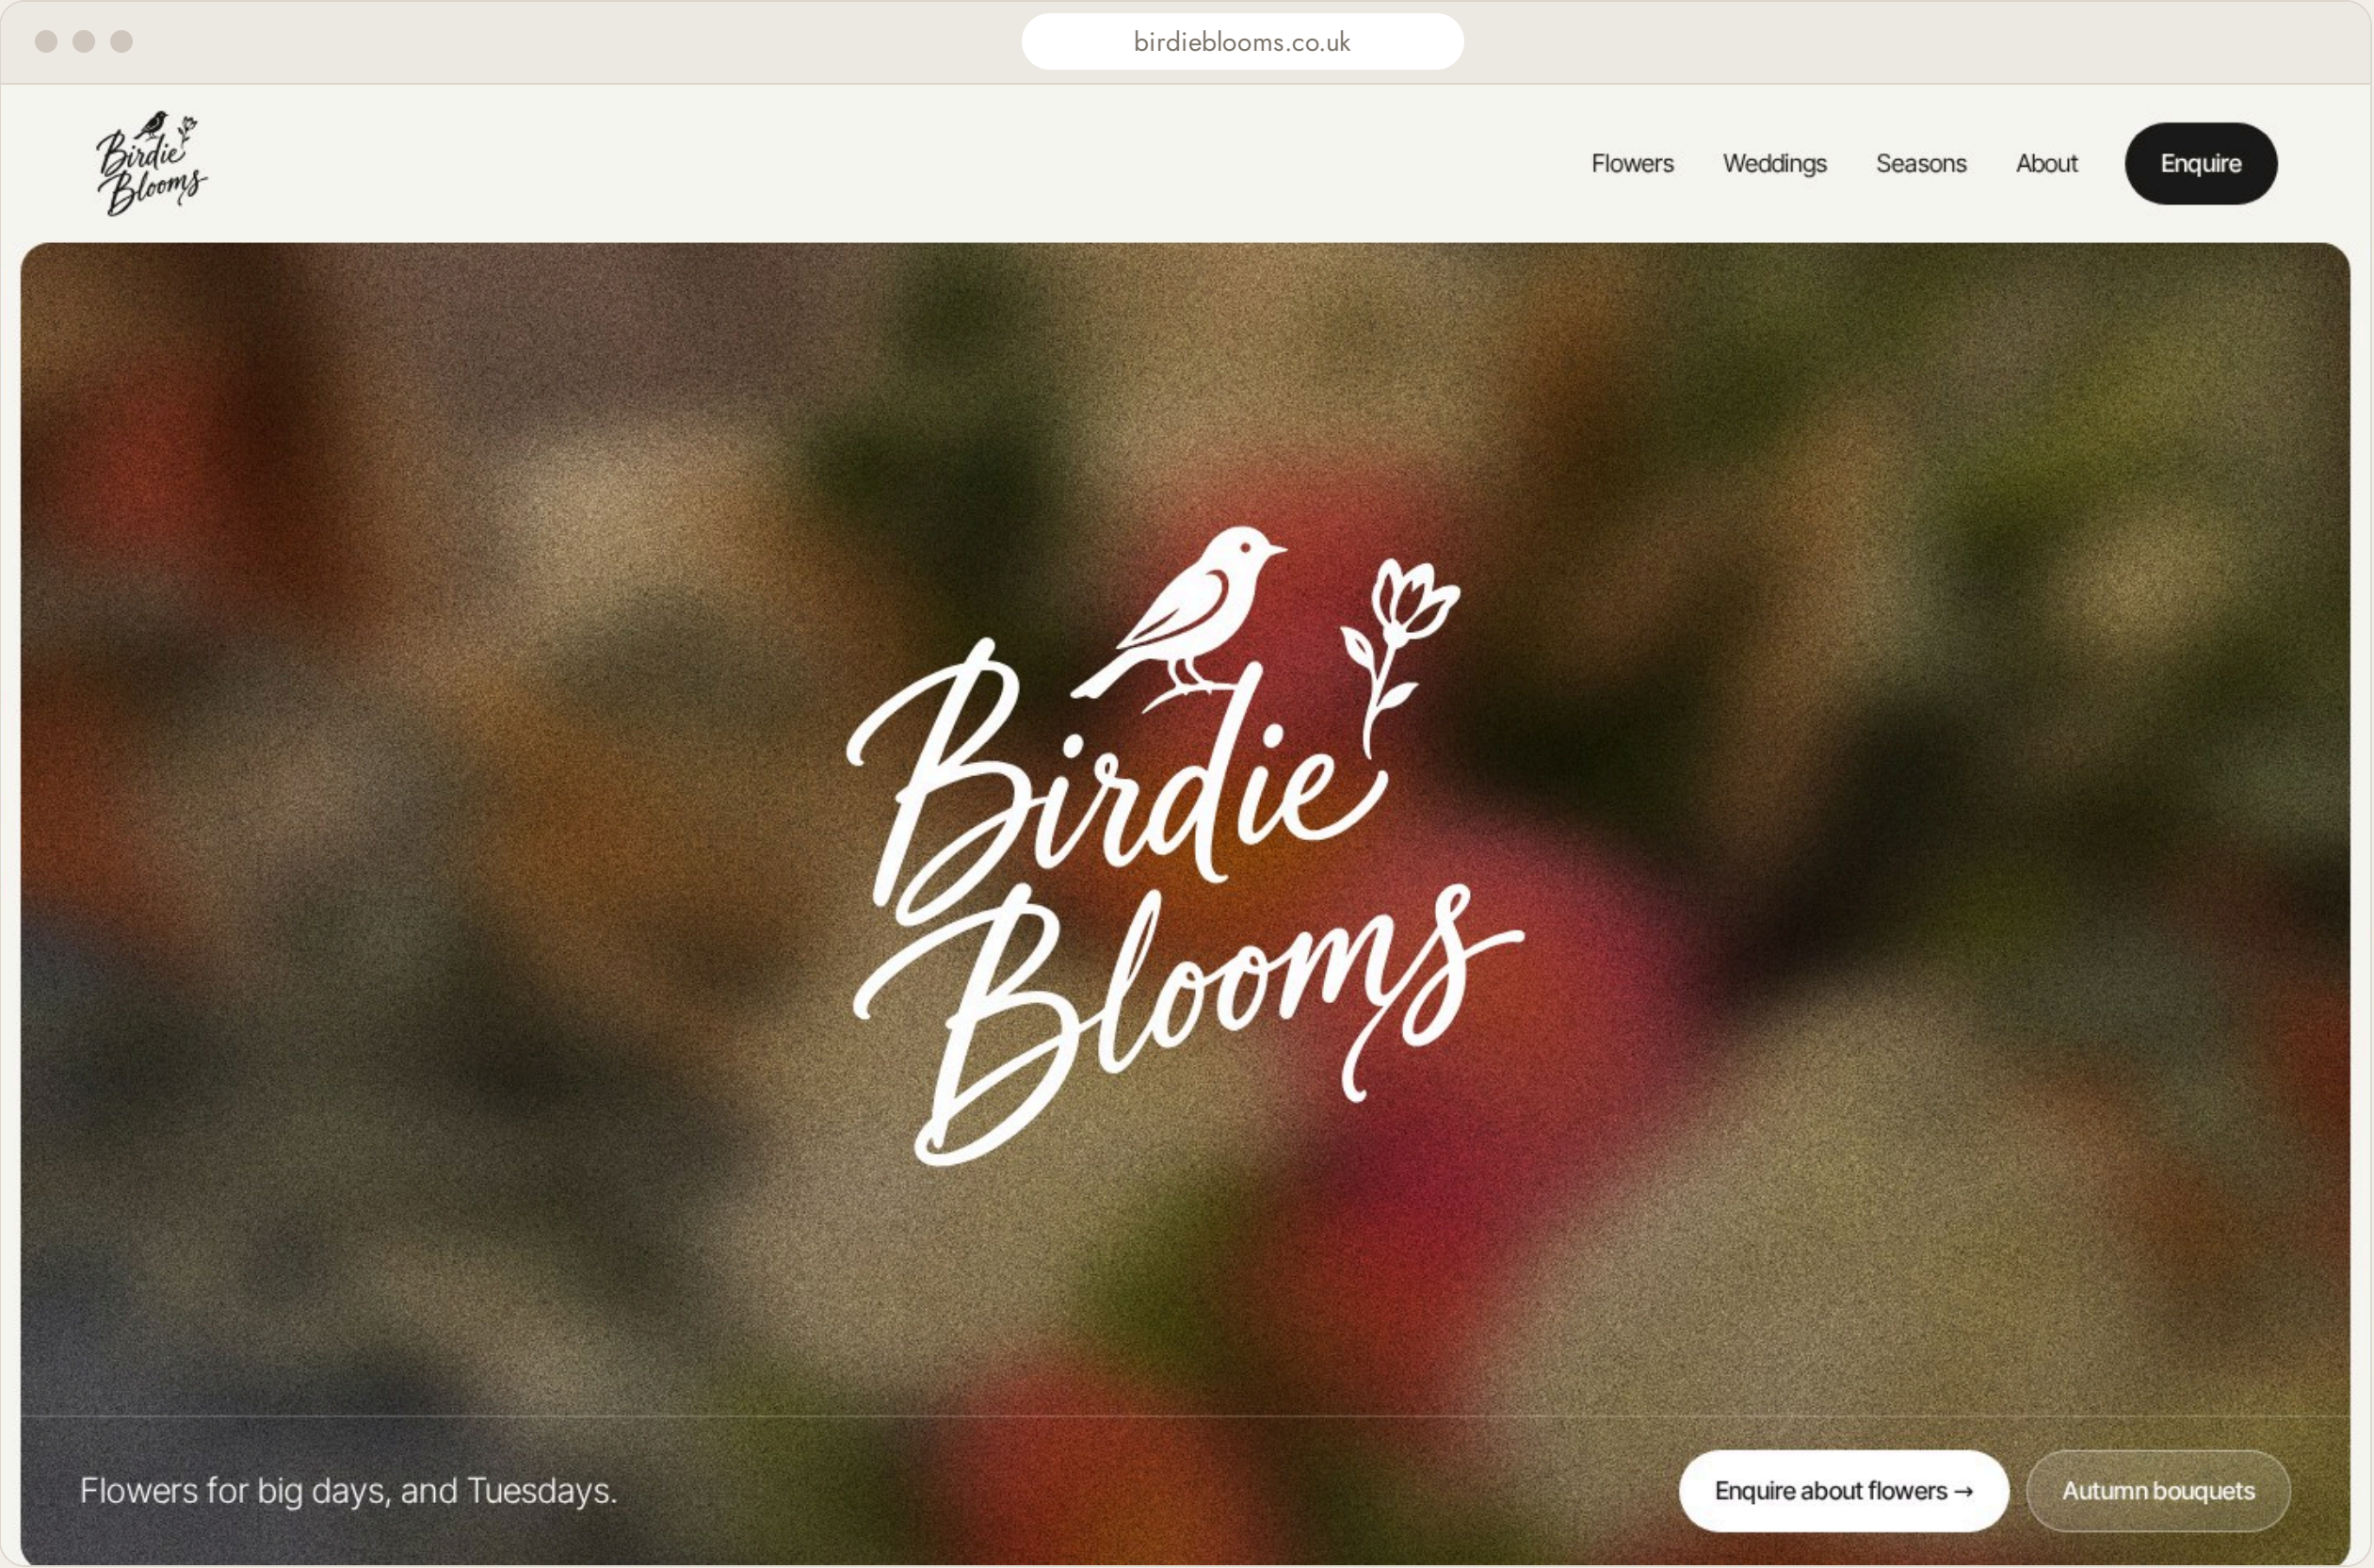

Each logo, dropped into the same home page

To compare the eight options fairly, every logo sits in the same calm, neutral home page: her flowers softly blurred behind the logo, a warm white background and one quiet typeface. Each page shows the desktop view and the phone view.

At the end are the two home pages designed around a logo: **02 Groovy Bloom** and **03 The Dove**, shown in full.

ABOUT

A one-woman flower studio.

I make loose, garden-style flowers with a nostalgic feel: soft colours, seasonal stems and the odd unexpected thing, like a pumpkin. Every arrangement is made by hand, to order, in Ravenstone and Kibworth.
